EDUCATION

University of New South Wales

Bachelor of Science (Computer Science)

Notable Coursework: Algorithms & Programming Techniques, Object-oriented Design & Programming, Computer Networks & Applications, Database Systems, Data Services Engineering

Graduated: Sep 2020

Distinction Average

TECHNICAL STRENGTHS

Programming Languages

Python, JavaScript (React), Perl, Shell/PowerShell Scripting

Tools

Git, SQL, Unix

Spoken Languages

English, Cantonese (Conversational)

WORK EXPERIENCE

Deloitte

Jan 2020 - Feb 2020

Platform Engineering Vacationer

- Worked with the systems integration team to refactor and add new cases in Mule 4 using the stubbing framework to ensure tests pass. Updated Postman environment variables to reflect changes.
- Created a prototype learning tracker platform as part of an internal hackathon with other vacationers and presented demo to senior managers and partners. Languages/Frameworks: Python, Flask-RESTPlus, React.

InLoop

Nov 2018 - Feb 2019

Intern

- Selected for the pilot run of the Co-NNECTIONS program, a new initiative managed by UNSW Co-op. Experiences from the program includes leadership development through a camp, mentoring with a Co-op alumni and an internship.
- Working with Microsoft PowerBI to clean and create valuable metrics from fleet telematics data. Created a prototype dashboard with interactive data visualisations.
- Worked closely with a small team to write PowerShell scripts to ensure data remains consistent across development environments after deployment. Working with APIs across AWS (DynamoDB, Lambda, CloudWatch, SNS).

UNSW Nura Gili

Jul 2018 - Nov 2018

COMP2521 (Data Structures and Algorithms) Tutor

- Tutor for the Indigenous Tuition Program (ITP), a program designed to provide supplementary tutorial support to Indigenous students.
- Developed individual learning plans to suit each student's learning style and monitored progress throughout the semester.
- Covering basic data structures and algorithms in C and supplementing student's learning from normal classes.

Coles Supermarkets

Nov 2015 - Jan 2018

Team Member

- Developed leadership through the training of 5 new team members in nightfill.
- Improved time management by working towards replenishment fill rate and ensuring product availability for customers.
- Demonstrated client management and communication skills through delivering a high level of customer service.

VOLUNTEERING

Careers Leader Program

Feb 2017 - Mar 2017

UNSW Careers and Employment

- Worked effectively as part of small teams to create media content which made appearance on Careers and Employment's official Facebook page
- Utilised effective communication and interpersonal skills to encourage over 1800 students to attend O-Week seminars and almost 2500 students attend the Annual Careers Expo
